### 1. STATEMENT

|                               |                    |     |
|-------------------------------|--------------------|-----|
| Novelty (N)                   | Claims <u>1-55</u> | YES |
|                               | Claims <u>NONE</u> | NO  |
| Inventive Step (IS)           | Claims <u>1-55</u> | YES |

|                               | Claims <u>NONE</u> | NO  |

### 2. CITATIONS AND EXPLANATIONS

Claims 1-55 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest:

Determining a difference between the determined columns or row; and

If the determined difference is less than a threshold, determining subsequent columns or rows by repeating previously determined columns or rows.

Claims 1-55 meet the criteria set out in PCT Article 33(4), and thus meet industrial applicability because the subject matter claimed can be made or used in industry.
